their own event history datasets. However, they then need to make a significant use of event history methods in their papers. Those who wish to write a term paper should consult with me

Event History Analysis I: Continuous-Time Models

His Ph.D. from the University of California, Berkeley in 1975 introduced counting processes and martingales

in event history analysis. He has also contributed to numerous other areas of event history analysis, such as additive hazards regression, frailty, and causality through dynamic modeling.

Survival and Event History Analysis | SpringerLink

A much-needed primer, Event History Analysis with R is a didactically excellent resource for students and practitioners of applied event history and survival analysis. TABLE OF CONTENTS chapter 1 | 16 pages

Event History Analysis with R | Taylor & Francis Group

Since his Ph.D. in 1984 he has contributed extensively to event history analysis. He is co-author of the monograph Statistical Models Based on Counting Processes, and is editor of Scandinavian Journal of Statistics.

Survival and Event History Analysis - A Process Point of

vival analysis include event history analysis, failure time analysis, hazard analysis, transition analysis, and duration analysis . Although some methods of survival analysis are purely descriptive (e.g.,
